

"It's Time We Learned" Opens At Peabody Playhouse Friday

World Premiere Will Be Given By Dramashop

World premiere of the first South American play ever written in English will take place at 8:30 P.M. next Friday evening in the Peabody Playhouse. The play, "It's Time We Learned" by George Bemberg, will have repeat performances at 2:15 P.M. on Saturday afternoon and again at 8:30 P.M. that night.

The play is a comedy about two American boys who go to visit their friend in an unidentified South American country and nearly break up a family because of their ignorance of South American customs. According to the author, two motion picture companies had offered to buy the rights to this play before the M.I.T. Dramashop took over.

The cast, which has been changed is now as follows: Felipe Vallejo, Robert L. Lichten, '43; Mech Vallejo, his wife, Janet Norris, '42; Pepe, his eldest son, Jack L. Uretsky, '45; Benjamin, the other son, L. Gerald Firth, '43; Carmen and Teresa, his daughters, Mildred B. Edwardson and Frieda S. Omansky, '46; and Jaime Tierra, Carmen's suitor, Jorge Ross, '43.

Carolina Pinto, the grandmother, is played by Dorothy I. McKernan, '44; Tia Marta and Tia Christina, two maiden aunts, by Dorothy D. Grueninger and Joan C. Westcott of the Katherine Gibbs school; Tio Manuel, an uncle, L. William Katz, '43; Dick Hubbard and Larry Foster, the two North American boys, Jasper D. Ward and Harold A. Miller, '45 and '44 respectively.

Chicha Galvez, Pepe's fiancée, Marion H. Ferris, '45; Paco, the butler, Edwin A. Rosenberg, '45; and Nelida, a servant, Rosemary J. Burghoff, '44.

Frankel Elected Tau Beta Pi Head

New Board Replaces Old; Prof. F. K. Morris New Faculty Adviser

As the result of elections, following the initiation of its new members, the Technology chapter of Tau Beta Pi, national honorary engineer's fraternity, passed into new hands, as announced last night by Carthrae M. Laffoon, '43, retiring president of the fraternity. Last night in the Litchfield Lounge, Raymond F. Frankel, Jr., '43, became its new president. Following Frankel as vice-president, Carleton F. Bryant, '43, was elected; F. Curtis Smith, '43, was made treasurer. New correspondent is Clinton C. Kemp, '43, and chosen recorder was Robert W. Maxwell, '43. Professor Frederick K. Morris, of the department of Geology, was elected faculty advisor to the fraternity.

Retiring from an active year's work is the old board, headed by Carthrae M. Laffoon. Retiring vice-president is C. Frederick Leiserson, '42; treasurer, Herbert G. Twaddle, '42; secretary, Ronald Shainin, and recorder W. Hoover Shaw, '42.

Chief among Frankel's activities was his position as president of the debating society. Bryant has been active as manager of the varsity crew, is a member of the Beaver Key Society, and now president of Lambda Chi Alpha fraternity.

Freshmen Choose Roly Rogers For Promenade On May 6

Roly Rogers, has been chosen as the orchestra to play for the Freshman Prom to be held Friday, May 8, at a hotel to be announced later. Rogers was last heard at the Institute when he played for the Saturday night dance in Walker on Junior Prom weekend. The band is to be the same, including singer, as the one which was presented at that time.

The main lobby of Building 10 and the east entrance of Building 2 are the two regular places at which everyone can buy options

for the dance. These options which went on sale this morning at the price of \$2.00 represent the majority of the \$3.30 ticket price, and will be redeemed later. They can be obtained from members of the Freshman Council as well as at the places mentioned above.

The dance like any other class prom is open to the whole Institute, and promises to be as good a dance as any seen here this year. All those who heard Rogers on Junior Prom weekend have voiced very enthusiastic comment on the type and quality of music which he played.

Graduation Visitors May Register Here

Because of the speed-up program, the date for graduation of the Class of 1942 will coincide with the date set for the registration of all men from 45 to 65. However, this should not restrain any fathers from attending the exercises. According to the draft regulations, any man may register with the draft board in the city where he is at the time. Therefore, Cambridge or Boston boards will take all registrations and forward them to the correct draft board.

Uncle Walter To Honor Tech With Stein Song

Hope has come to all "suffering" good fellows, for Uncle Walter, of Dog House fame, will honor the Institute at 7:30 P.M. tomorrow night over the N.B.C. network when he plays the Stein Song in his College Medley.

"Uncle Walter's Dog House" is the only program on the air that is designed to "alleviate, ameliorate, mitigate" and otherwise relieve the "suffering" of all good fellows who, through misunderstanding of their wives or sweethearts, are now in the "Dog House" through circumstantial evidence. If any Technology students are among this dejected lot, Uncle Walt advises them to lend ear.

Virgil E. Otto, '43, made the arrangements for having the song sung.

Dr. Janney Will Deliver Final Talk

Last Marriage Lecture To Be Given Today

The final lecture of the spring series in Professor F. Alexander Magoun's lecture "course" on marriage and its difficulties will be devoted to a detailed analysis of the birth of a child. Professor Magoun announced last night that Doctor James Janney, famous gynecologist, and executive of the Marriage Study Association, will deliver the address.

The subject matter will be illustrated by elaborate slides, and diagrams according to Professor Magoun. He made clear the fact that the student will leave Huntington Hall with a complete knowledge of a vital process; with no illusions of one that has been long hidden under the veil of prejudice and legend prudery.

The series, entitled "In Preparation for Marriage" consisted of four lectures. The fall series dealt with the problems preceding marriage, the present series continued into the post-marital period. The first lecture emphasized that the honeymoon is one of the most important factors toward building a successful marriage. The second lecture stressed the necessity for correct emotional adjustments to married life; the third lecture brought home the fact that many failures in marriage are caused by the partners' unpreparedness to do an intelligent home-making job. The birth of a baby is a proper conclusion for this popular group.

Rev. Sharp Will Lead Religious Discussions In Huntington Wed. At 5

EMBASSY SPEAKER

The Reverend Waitstill H. Sharp, who will speak at the T. C. A. Embassy.

European Traveler Is Main Speaker At T. C. A. Embassy

The Reverend Mr. Waitstill H. Sharp, who has recently returned from four months in France, Spain and Portugal, will be the speaker at the meeting of the T.C.A. Embassy in room 10-250 at 5:00 P.M. tomorrow. This meeting, to which all students are invited, is to give the men from the various groups a chance to meet the men who will preside over the fraternity and dormitory discussions.

Reverend Sharp will speak on "Cynicism, Agnosticism, Religion—Three options for the intelligent student." After the meeting, the men will leave for the various houses for dinner. After dinner, they are to give short introductory talks to start the discussions. It is expected that the speech by Reverend Sharp will be the main subject of the after dinner talks.

There will be six religious denominations represented at the embassy, including five Mormon missionaries.

Twenty-three of Technology's twenty-four fraternities are to have guest speakers at dinner, and the Student House, the Graduate House, the undergraduate dorms, and the Five Fifteen Club also plan to give a dinner.

The men at the various houses will be L. George Weston and Robert Ward at Beta Theta Pi, Reubin H. Markham at Chi Phi, Professor Amos Wilder at Delta Kappa Epsilon, Reverend Samuel Weller at Delta Tau Delta, Reverend Frank Jennings at Kappa Sigma, Mr. Kenneth Batty at Lambda Chi Alpha, Rabbi Abrahams at Pi Lambda Phi, Reverend Ashley Leavitt at Phi Beta Epsilon, Father F. H. Smyth at Phi Delta Theta, Reverend Samuel Lindsay at Sigma Alpha Mu, Reverend Everett M. Baker at Phi Gamma Delta, Professor Havice at Phi Kappa Sigma, Mr. L. S. Bryant at Phi Mu Delta, Addison Udall at Phi Sigma Kappa, Bob James at Sigma Alpha Epsilon, Reverend Walton Cole at Sigma Chi, Reverend H. W. Foot at Sigma Nu, Reverend S. H. Fritchman at Theta Chi, Conway Sonne and William West at Theta Delta Chi, Mr. Floyd Armstrong at Theta Xi, and Mr. Carl Kopf at the Student House.

The Senior House and the undergraduate dorms will have dinner with Professor Timbie of the department of Electrical Engineering behind the curtains in Walker Memorial and will retire to the Litchfield Lounge for a discussion afterwards. Professor Frederick K. Morris of the Geology department will be the guest of the 5:15 Club in their club room that night, while the Graduate House will entertain Coumara Swamey.

Alpha Tau Omega is planning to have Mr. Carl Kopf at some later date when he is free.

Next Issue Of The Tech To Give Spring Program

Announcing the complete program for Seniors and the summer program for Juniors, the next issue of The Tech will be of vital importance to members of the classes of 1942 and 1943. The issue will show final dates for theses, reports, and all work for the upper class and will list the entire selection of courses for Juniors in the summer school.

The Graduation program will also be included among the final dates for Senior work. The deadlines will be given for every requirement necessary for graduation. This summer program includes only those courses which Juniors have to take, and does not include the standard summer courses.

Cabots Receive At Russian War Relief Dance

Ruby Newman's Music And Russian Conga To Be Attractions

The Cabot's, who, according to popular knowledge, "speak only to God," have condescended to lower themselves to speaking terms with the Union of the Soviet Socialist Republic. Dr. and Mrs. Hugh Cabot, members of the Massachusetts Committee for Russian War Relief, will head the receiving line at the war relief dance which is to be held at 9:00 P.M., this Saturday, in Morss Hall of Walker Memorial.

The dance, with music furnished by Ruby Newman and his orchestra (Continued on Page 4)

Frosh Sections To Begin Debates

This year the English department and the Debating Society are co-operating to run a Freshman Inter-section debate contest. Each section will be represented in the first round by a team using the subject "Resolved: that the federal government should regulate by law all the Labor Unions in the United States." The first round is to start on April 24 and 25.

The Debating Society is planning to run an exhibition debate in Litchfield Lounge on Friday, April 10 at 5:00 p.m. to aid the freshmen in the tournament and to help them prepare their debates. The men in this exhibition will be George M. Musgrave, '43; Philip J. Bendt, '43; Richard J. Zeamer, '43 and Henry C. Shepard, '43.

Technique Options Are Redeemable This Week

The options for the 1942 Technique, official Institute yearbook, should be redeemed this week in the Main Lobby of Building 10. As an inducement to the late-payers, the four color feature of the book is on display at the desk.

Seniors only have a few more weeks to purchase the volume, as only eight hundred copies remain for future distribution.

INTO THE DOG HOUSE

Uncle Walter to feature Tech on his "Dog-House" program.

All we lack around the Institute these days—

Rumor has it that old Building One will be torn down—

Which will eventually lead to this—

Technique Options Are Redeemable This Week

The options for the 1942 Technique, official Institute yearbook, should be redeemed this week in the Main Lobby of Building 10. As an inducement to the late-payers, the four color feature of the book is on display at the desk.

THREE DOLLARS' WORTH OF SAILING

Spring is officially here and with its advent comes the annual debate upon the feasibility of joining the Nautical Association for those who neglected to join last fall. By paying his dues now, a student signifies his intentions of entering into the mad race against fifteen hundred other would-be yachtsmen for the privilege of using one of the half-hundred dinghies, provided that he has passed the necessary requirements.

A new member starting out with no previous sailing experience must undergo a waiting period of about two weeks during which he is initiated into the rules of the yachting profession, and must assimilate the necessary knowledge of winds, and hulls, and sails, and sheets, and knots, and the mysterious phraseology of the nautical world. The balance sheet for such an investment shows on the debit side an expenditure of three dollars and two weeks of labor and on the credit side the privilege of using the dinghies until the first of June. The debits far outbalance the credits; three dollars and two weeks of study is too high a price to pay for an immediate return of four weeks of enjoyment in the Tech dinghies, when that same expenditure, if made on the first of June, would permit the student to use the dinghies for an entire calendar year. Under the present arrangements, the potential sailor must shoulder this comparatively tremendous expense or forego the privilege of receiving shore school instruction until the fall of 1942. Such arrangements are undoubtedly unfair to the new members of the Nautical Association; they pay their three dollars now to learn to sail and then they must pay another three dollars on June 1 if they are to reap any gains from their previous investment.

A simple solution to the problem would be a reorganized schedule of dues and dates of membership. If a novice's tenure of membership were to begin at the start of each shore school session, he would be guaranteed at least a full year's use of the dinghies. A man registering in the fall would continue as a member until the following autumn, and the individual who takes up sailing in the spring of the year would receive his entire three dollars' worth, membership for the year ending at the next spring season.

INFORMATION PLEASE

With Technology now operating under an accelerated schedule there have been many changes made about which the students, due to some oversight, know very little. There are many questions with regard to changed schedules, courses, requirements and Institute policies which could be cleared up very quickly if the student knew what sources to consult.

With this in mind The Tech, in cooperation with Institute authorities, has arranged to handle all such questions of puzzled students through its Letters to the Editor column. In the past it has been the policy of The Tech to print all signed letters, anonymously if desired, in this column.

The answers to these questions will be officially correct. In each case the proper person will be consulted and the answer will be finally checked with the News Service before it is given out. Where it is impossible to do this we will make this clear. Thus the student will be able to act on the information with the full knowledge that he is doing the correct thing.

Of particular interest to the members of the Junior class will be the summer session schedule, which The Tech will publish in its next issue. Revised course schedules, dates of classes, vacation, etc., and other pertinent information will be printed at that time. This will represent the final decision of the various courses on their summer session schedule and will distinguish between the subjects for the first and second half of the summer.

NO ADMITTANCE...

"Divide And Conquer"

(Editor's note: The material in this article is taken directly from a bulletin published by the Office of Facts and Figures, Washington, D. C. It is hoped that a more complete knowledge of Axis propaganda techniques will enable thinking Americans to recognize and combat them more readily, and in this interest the following is written.)

The Nazi Terror...

Soon after Pearl Harbor, a Nazi broadcaster to America shouted: "British naval circles are finding encouragement in the defeat suffered by the United States!" Calculated to create distrust of our allies, this Nazi lie, like all Nazi lies, was part of a vast strategy of terror. Hitler knows that in order to conquer the world, he must first enslave the mind of man, and toward that end he is carrying out a program of propaganda, blackmail, and death. Because he fears truth, he has tried every means of wiping it off the face of the earth.

Before Hitler attacks any country, his agents carefully sow seeds of hate and disunity, turning people against their own governments, governments against their allies, class against class. These deliberately planted rumors are often passed on by innocent civilians in casual conversation.

Before the invasion of Austria, young Nazi hoodlums were sent onto the streets to play school-boy pranks on the police and make them appear ridiculous in the eyes of the populace. In the early days of the war, before France was invaded, morale was lowered by professional weepers, clothed in deep mourning, who wandered into subways and onto buses in Paris, spreading the false belief that French casualties were enormous. Mothers received mysterious postcards informing them that their sons, at the front, had either been killed or were deathly ill. In this way, anti-Nazi morale was systematically undermined.

The Poison Takes Hold...

Circulated day after day, worming their way into the minds of Frenchmen, Norwegians, Danes, Belgians, Austrians, Dutch, Czechs, and Poles, these rumors created a feeling of fear and frustration, a loathing of the war, and a certainty of defeat. Having weakened the resistance of his enemies, Hitler was quick to find outlets for their discontent.

For most evil, the Jews were to blame. Business is bad? Labor is to blame. Wages are low? Capital is to blame. War is Hell? The British are to blame. Everybody

was to blame except Hitler, the common enemy who would crush them all, and national unity was destroyed by setting group against group.

Slowly, Hitler tried to deaden the combative spirit of the French soldier by making him distrust his British ally. When the French first crossed into German territory, the Germans retired without firing a shot, leaving behind posters saying that they had no quarrel with the French. When French scouting planes swooped over the German lines, the Germans stood up and waved handkerchiefs. Hitler convinced the French that the war could be won without fighting. "Defense" would triumph! How often have we in America encountered that sort of thinking?

Invasion Tactics...

Hitler invades only when his groundwork of treachery has been well laid. During actual invasion, the strategy of terror creates untold confusion and panic, both among civilians and soldiers. During the battle of France, German bombs and planes were equipped with screaming sirens and whistles, turning the battlefield into an inferno of sound. Seizing French wave lengths, Germans broadcast false warnings to inhabitants of villages and towns, driving entire populations onto the roads, and clogging them so completely that French reinforcements could not reach the front. Polish fifth columnists aided German fliers by arranging piles of hay in their fields, pointing directly to munition dumps and other strategic posts. It may be remembered that this trick was copied by Japanese fifth-columnists in the Philippines.

Tactics in America...

"America is permanently on the brink of revolution," Hitler has said. "It will be a simple matter for me to produce revolts and unrest in the United States, so that these gentry will have their hands full."

Simple matter? That depends on us, and on how well we profit from the lessons of Europe. We have seen how Hitler's strategy created internal distress in every nation he intended to attack. We have seen how he undermined civilian morale, separated governments from their allies, set group against group. The Nazis are very fond of the old "England will fight to the last American" gag, and they have used it very effectively in Europe, substituting the name of the particular people they wish to divide in place of "American."

What Hitler Wants Us

To Believe...

To destroy our national unity, create unrest in all groups of the population, and deflect us from our major purpose—the defeat of the Axis—Hitler is trying to set capital against labor, white against Negro, Catholic against Protestant, and Christian against Jew. Among Hitler's favorite fallacies are the following:

Democracy is dying, our armed forces are weak, we are lost in the Pacific, the cost of the war will bankrupt the nation, aid to our allies must cease, American democracy will be lost during the war.

To spread these and other lies, Hitler will try every trick at his command, but thinking Americans will not be deceived. We are armed with the truth, and we will crush the tyrant.

The Or-Else Technique...

The night before the invasion of Norway, the German Ambassador invited many prominent Norwegians to his home, and showed them "Baptism by Fire," a movie taken during the invasion of Poland. Bombed cities, raging fires, and crushed bodies were pictured in harrowing detail. Later, over champagne and a midnight supper, the German Ambassador quietly observed that the Poles could have been spared this tragedy had they granted Hitler's demands.

For years, the Nazis bloodlessly invaded the Balkans, sending countless German agents armed with brief cases and impeccable manners to cultivate the friendship of business and professional men.

Countless German commercial travelers abroad were Nazi agents spreading the doctrine of Hitler. Some agents wormed their way into the confidence of cabinet ministers, others worked on newspapermen, still others on persons high in financial and military circles. No layer of society was neglected. Different words were chanted to different groups, but always the tune was the same: "Hitler cannot lose."

Beaver Lacrosse Team Smashes Boston Club, Faces Tufts Tomorrow

Stickmen Win Opener 5-2 At Medford

In the inauguration of their current season, the varsity lacrosse team overpowered a classy but unrecruited Boston Lacrosse Club with a decisive 5-2 tally. The Tufts stickmen beat the same team 8-2 a few weeks ago in a practice session. This foreshadows a close, hard-fought game with Tufts tomorrow at 4:30 at Medford.

The Beaver lacrossers deserve a lot of credit, for they were playing for the first time on a full sized field. However, the Beavers had the decided advantage of ten substitutes to the opponent's two.

The following five men each succeeded in shooting the ball into the enemy's net; Pete Sibley, Gene Schnell, Bill Kennelly, Al Heckel, and Ralph Leader.

The starting lineup is as follows:

Wally Jevon	Goal
Bob Given	Pt.
Cal Dunwoody	C. Pt.
Doug Fenton	1st D.
Capt. Bob Evans	2nd D.
Pete Sibley	C.
Gene Schnell	2nd A.
Bill Kennelly	1st A.
Al Heckel	O. H.
Ralph Leader	I. H.

This game commenced a full schedule of games every Wednesday and Saturday throughout this month. The next game with Tufts on Wednesday this week will be a "close, hard-fought game" in the words of the coach, Bob Maddux. Last year the Tufts twelve edged the Tech boys 5-4. With a better team this year the Beavers may be able to turn the tables.

Softball Begins As Beaver Key Volleyball Goes On

Part of the first round of the Beaver Key softball tournament was completed over the week-end as five of seven scheduled games were completed. The D.U.'s, last year's winner, crushed the Chi Phi's on Sunday to the tune of 25-7, while at the same time the S.A.M.'s downed the Pi Lambda Phi's by a 17-11 count. On Saturday the Dekes shut out the Theta Xi team, 14-0, while Sigma Nu overcame the Beta's, 27-11. Among the dorm teams Senior A took the measure of Bemis, 20-14, while Senior B defaulted to Hayden. The remaining game between Phi Kappa Sigma and Theta Chi was postponed and will be played sometime during this week.

The remainder of the first round will be completed this week-end if possible, and the second round started on Sunday. Saturday's games will include Wood vs. Goodale, Walcott vs. Phi Mu Delta, Munroe vs. Senior C, Phi Gamma Delta vs. Lambda Chi, Alpha Kappa Sigma vs. Student House, Phi Kappa vs. Phi Delta Theta, Sigma Chi vs. A.T.O., and S.A.E. vs. Theta Delta Chi. All teams are urged to try to play their games on the date scheduled or before if possible because of the necessity of completing the tournament before the Seniors graduate.

In the Beaver Key volleyball tournament only one contest was played over the week-end accord-

(Continued on Page 4)

Crew Training Is Intensified; First Crew Regatta Approaches

The crew is entering the final phase of its training. This fine April weather is very conducive to rowing. This late training is the most intensive and strenuous, for the crews must be ready for the Rowe Cup Regatta here on April 25. The entries will be from Harvard, Boston University, Syracuse, as well as M.I.T.

There have been several changes in the lineups of the heavy boats. The 150 pounders have not been changed, as yet. The current first varsity heavy boat has DeVoe at stroke, Flowers No. 7, McGuire No. 6, Tyberghien No. 5, Lehman No. 4, Bakker No. 3, Heller No. 2, and

Hewes at bow. The second varsity heavies are stroked by Thiede followed by Spitz at 7, Taft at 6, Bowen at 5, Leader at 4, Walz at 3, Maxson at 2, and Turner at bow. Competition is still keen, however, and any deserving oarsman may land in the first varsity.

The freshman heavy lineups are given now with the understanding that no position is absolutely certain as yet, and that competition is still sharp. The first boat lined up as follows yesterday, Smith, stroke, Robertson at 7, Kalb at 6, Held at 5, Russel at 4, Pearson at 3, Burke at 2, Stromstead in the bow.

Informal Racing And Shore School Prepare Sailors

With informal racing, shore school, and continuous practice for collegiate races, the Nautical Association is providing sport for several score students and their professors. Many are practicing for the races scheduled soon.

The Intercollegiate racing will start on April 18 at Brown, where the team will try for the Sharpe Trophy. The following day, part of the team will stay at Brown for the New England Associate Member Championships, while another section will go up the river to Harvard to race for the Owen Trophy.

The hurdles which the candidates must clear are numerous, but with the instruction given, the achievements come fast. To qualify for a member of the crew, a student must pass several knot tests, have a working knowledge of the dinghies, of the weather, and of piloting rules. A man usually becomes a crewman after about two weeks of consistent work and sailing. Later he becomes a helmsman, and qualified to take out a boat alone, and eventually, he becomes a boatswain.

New Sloop

In addition to their fleet of fifty dinghies, the sailors now have four Lawley 110-class sloops. The fourth vessel has recently been donated by the Class of 1917 as part of their class gift, and the sloop will probably be christened as the "1917."

The 110-class sloops are much faster and longer than the dinghies. They are 24 feet in length, sleek, and require more skillful handling than the dinghies. The four are colored differently, the new one being painted white. The other three are named: Morss, Desmond, and Schell.

Briggs Field Tennis Courts Available; Tech Racqueteers Commence Practice

Opened for play for any of those who wish to use them, the Briggs Field tennis courts may be had by signing up at the cigar counter in the basement of Walker Memorial, it was announced last night by Dick Stern, '43, manager of the varsity tennis squad. Courts No. 1 and 2, however, are being reserved from 1:00 to 6:00 P.M. for exclusive use by the freshman and varsity tennis teams.

All those who intend to work toward the tennis team this spring must submit eligibility cards to the coach as soon as possible. Coach Jack Summers makes this request because the first match will be played on April 24th, and the tennis team has already been lined up and has been practicing two weeks for the coming matches.

The final schedule has been announced.

Even tougher than frosh schedules in the past years, Summers added that this year's frosh team has really something to shoot for.

The schedule for the varsity will be run as follows:

Colby—here—Friday, April 24.
Boston U—there—Wed., April 29.
Rhode Island—here—Fri. May 1.
Lowell Textile—there—Mon., May 4.
Tufts—there—Wed., May 6.
W.P.I.—there—Thurs., May 7.
Harvard—there—Fri., May 15.

The schedule for the frosh, most of whose matches will be played on home grounds, consists of:

Harvard—there—Mon., April 27.
Boston U—here—Wed., April 29.
Tufts—here—Sat., May 2.
Newton High—there—Mon., May 4.
Boston English High—here—Wed., May 6.
Phillip's Academy—here—Wed., May 13.
Philip's Exeter—here—Sat., May 16.

6:00 P.M. Dorclan Society Dinner—Pritchett Hall.

Baton Soc. Elects
15 New Members

All Tech Sing Will
Become M. I. T. Tradition

Elected to the Baton Society, honorary musical society acting as the board of directors of the three musical organizations, the orchestra, Glee Club, and Spring trio, was a group of fifteen students, it was announced last night by Christian J. Matthew, '43, secretary of the society. They are William S. Buzard, '44, George DeW. Woody, '44, Samuel G. Morrison, '44, Roland Benjamin, Jr., '44, John A. Bavicchi, '44, Frederick J. Blatz, Jr., '44, Milton E. Borden Jr., '44, Thornton Stearns, '44, Robert El Benedict, '45, Nelson Whitman, G, Franklin E. Morris, G, Hans E. Wohlmill, '43, Francis N. LeBaron, '44, Sidney L. Hall, '43, and Arthur R. Beckington, '44.

These men were elected two weeks ago today, followed by their annual banquet last Tuesday, the night of the blackout. Tonight, in the Senior House's Ware Lounge, at 7:30 P.M., the new officers will be elected.

Chief contribution of the Baton Society is the sponsoring of the All Tech Sing, which was held last Fall. That was the first of what is now planned to be an annual affair, and the Baton Society has already laid plans for the sing to come in the Fall of this year, as announced by Matthew. The excellent turnout last Fall, and the great popularity of the affair, will make it possible for this choral show to go down as a Technology tradition.

Beaver Key Tourneys

(Continued from Page 3)

ing to Cal Dunwoody who is in charge of the tourney. In that contest on Sunday morning the D.U.'s were downed by the S.A.E.'s. Several other games will be played this week in order to decide which teams will complete in the round robin phase of the tourney. On Tuesday Delta Tau Delta will play Chi Phi the winner to meet Phi Sigma Kappa, while Wednesday Senior A will play Goodale in order to decide who will play Phi Gamma Delta. Also on Tuesday the Dekes will play the Phi Kappa Sigs, while on Thursday Phi Mu Delta will play either Pi Lambda Phi or the Student House.

Seniors May Obtain
The Tech At Low Rate

Letters have been sent to the members of the Class of 1942 announcing that they will be able to subscribe to The Tech for the coming year for the price of \$1.50 as opposed to the regular mail subscription price of \$2.00. The subscriptions will start in May, and the cost must be paid by October 1.

This special rate to graduating Seniors is to include summer issues of the paper as well as those published during the regular school year.

Tennis

(Continued from Page 3)

Stern also announced the imperative warning that, if a tennis ball goes over the fence surrounding the tennis courts, the players are not to attempt to recover the ball without permission. Under no circumstances must anyone crawl over or under the fence.

Boston University, and Dr. Lawrence Mead, Chairman of the Foreign Students Council of Greater Boston, and Mrs. Mead.

INSTITUTE COMMITTEE AGENDA

APRIL 9, 1942

At Thursday's meeting of the Institute Committee, only old business will be considered. Under the constitution business at this special meeting is confined to the dissolving of last year's Committee, to the convening of the new Committee, and to the election of a vice-president, secretary, and a member-at-large.

The old business may consist of the following subjects mentioned in the last meeting.

1. Approval of the Nautical Association elections.
2. Approval of Dormitory Committee elections.
3. Approval of Student-Faculty Committee chairman.
4. Approval of I.F.C. elections.
5. Approval of change in constitution of Elections Committee.

Verrochi - Boyce Chosen
To Head Catholic Club

William A. Verrochi, '43, was chosen president of the Catholic Club for the coming year at a meeting of the club held last night in Room 10-267. Joseph F. Boyce, '43, was elected Vice-president and Thomas M. Bennett, '43, was chosen secretary. The treasurer is to be John A. White, '44, and A. Anotonio delValle, '43, Joseph C. Crowley, '44, and Thomas J. Dolan, '45, were selected representatives of the Senior, Junior, and Sophomore classes respectively.

Glee Club Will Present
Concert With Lasell

The Glee Club will present the first of the concluding series of concerts with Lasell Junior College this Friday, in Morss Hall, Walker Memorial. As has been customary during this season, the concert will be followed by a dance.

The two remaining concerts will be joint recitals with Wellesley on May 8 and Pine Manor Junior College on May 1, the former at Morss Hall.

Chi Epsilon Holds
Formal Initiation

Prof. Russell And Norris
Made Honor Members

Chi Epsilon, national honorary civil engineering society, held its formal initiation last Saturday evening in the Hotel Sheraton at which time Professor George E. Russell and Professor Charles H. Norris, both of the Civil Engineering department were initiated as honorary members. Also initiated were Victor C. Darnell, '43, and Ying Mun Mun Lee of Course I and Eng Joo Tan, '43, of Course XVII.

Professor Russell, '00, has been a member of faculty since 1905 and is a recognized authority in the field of hydraulics. He is a member of the A.S.C.E., and B.S.C.E. and serves on the advisory committee of the Coast Guard Academy.

Professor Norris graduated from the University of Washington and received the degree of Master of Science from Technology in 1931. He is regarded as an expert in the field of indeterminate structures.

In the principal address of the evening Professor Charles B. Breed, head of the department of Civil and Sanitary Engineering, stressed the application of the four principles of the fraternity which are character, scholarship, practicality, and sociability, to the present emergency.
